# Who are we?

In India, a girl's future can be decided before she ever has a chance to choose it. **Milaan Foundation** exists to change that.

Founded in 2007 in India and a **recognized U.S. 501(c)(3) nonprofit** in 2015, Milaan works with adolescent girls in India's most underserved communities, building agency, confidence, and leadership to rewrite what's possible for themselves and those around them.

At the heart of this work is the **Girl Icon Program**, a leadership movement by girls, for girls, working in the most marginalized communities to build agency, spark action, and shift gender norms from the inside out. In the communities where Milaan works, child marriage has dropped from 23% to just 1%. School retention has risen to 85%, compared to 60% across India.

**More than 100,000 young lives have been transformed, and the ripple effect is only growing.**

**Milaan is scaling to reach 2 million girls by 2030** across **Uttar Pradesh & Madhya Pradesh in India**, driving lasting, generational change.

# Milaan Amplify Gala

Hosted at

Curated by

## RHYTHMS. ROLE MODELS. RISING.

This October, Milaan Foundation takes the stage at one of Chicago's most iconic venues — the **House of Blues**. A space built on music, movement, and voices that refused to be silenced. It is the right room for a night like this.

The **Milaan AMPLIFY Gala** is our premier annual fundraising event, uniting philanthropists, business leaders, and advocates for a night of purpose, glamour, and community.

In partnership with **House of Jaya** — a fashion label at the intersection of culture, craft, and identity — the gala presents a live runway walk featuring **Chicago's women executives and founders**, each dressed in exclusive House of Jaya designs and walking as a public ambassador for girls' rights to be educated, healthy, and safe.
